

# Awesome Alum!

## The Boys & Girls Clubs of Yellowstone County Alumni Series, this month featuring Morgan Julian

### When did you attend the Club?

I began going to Club in 5th grade in 2005 and attended through middle school. At that time, my grandma was a Club staff member. I began working at Club after graduating high school and worked for five summers. My younger brother, Mikel, also attended Club and then worked there during college as well.

### Which Club?

I went to the Castle Rock Club as a kid (when Annie Hasiak was program director!) and then worked at Heights and McKinley Clubs.

### What were some of your favorite moments/memories?

Growing up, I loved playing games after school, especially air hockey. I remember cheese sticks and pickles as being my favorite after school snack.

As a Club staff, I really enjoyed creating and leading science activities with our Club kids! I loved building relationships with our kids over many summers and watching them all grow. Also, the Club had a fantastic group of staff who were always a joy to work with.

### What are you up to now? Job? Family?

I'm currently in my 4th year of medical school at the University of Washington. I will be graduating this Spring and plan on becoming a family medicine physician. I would love to be a doctor practicing back home in Billings!

### Tell us about your college journey.

I went to college at Montana State University in Bozeman. I majored in Food & Nutrition before continuing on to UW for medical school.

### If you could give a Club kid of today some advice, what would that be?

I still think about Club expectations as things that help me in my own life. I encourage Club kids to continue to be kind to others and leave the world in better shape than they found it!

**Thanks Morgan for  
sharing your story  
with us!**

If you are a Club alumni or know of anyone that is, we would love to chat!
